REMARKS: Purpose and content of the proposed Defense directive appear completely satisfactory, assuming that [ ] will lay on further detailed arrangements by which the appropriate word will get from the last distribution point of this directive to the guy who actually does the work. I suggest that coordination with JSPD is unnecessary since, under current Defense instructions and correspondence with us, detailed arrangements for this kind of support are made

directly between this agency and the Service departments.

*This looks OK. However I would appreciate it if you would coordinate this with JCS in order to determine what Agency policy should be. Cdt might be necessary to consult*
